Please contact our Sales Office if you require larger surfaces.

The absorbing bed is supplied with internal PEHD or PVC drainage pipes and one reinforced concrete well with internal water level control system. The foundation slab must be at least 20 cm thick and be reinforced with a double electrically welded steel mesh, 8 mm diameter, 20x20 cm mesh. A 3-5 cm layer of sand must be laid on the foundation slab where the prefabricated elements will be placed.
